

## Abstract submission deadline extended to April 1 2015

Taking into account requests from prospective participants at RICOMET 2015, it has been decided to extend the deadline for abstract submission at The International Conference on Risk Perception, Communication and Ethics of Exposures to Ionising Radiation (RICOMET 2015), which will be held from 15th to 17th of June 2015 in Brdo Castle, Slovenia.

The extended deadline for abstract submission is **April 1st, 2015**. Authors are kindly invited to submit the maximum 2500 characters including spaces at: [eagle\\_secretariat@rec-lj.si](mailto:eagle_secretariat@rec-lj.si). Authors will be notified regarding the acceptance of their abstracts after reviewing. Selected papers presented at the conference will be peer reviewed and, upon acceptance, will be published in the special section of Journal of Radiological Protection.

For any inquiry regarding the submission process and registration at the Conference please contact the Head of the Conference Secretariat at [eagle\\_secretariat@rec-lj.si](mailto:eagle_secretariat@rec-lj.si) and <http://ricomet2015.sckcen.be/>.

Early bird registration is open until April 2nd, 2015.

*The conference is organized under the auspices of the three FP7 projects:*

Dear colleagues,

We are pleased to **invite you to participate** the

## International Conference

15th to 17th of June 2015, Brdo Castle, Slovenia

The conference will be an **opportunity** for extensive **exchange of results** from the scientific research and FP7 projects and discussions on **public communication, risk perception and ethics** in the field of **all nuclear applications** (e.g. industry, medicine, security), **natural radioactivity** (e.g. radon) and **radiological protection** (in nuclear and radiological emergency management, low doses, communicating uncertainty, mass media communication, public understanding of ionizing radiation, EU research needs ...)

The conference will involve an international level of different **stakeholders**; from experts for public communication, media representatives, researchers from social sciences, humanities and natural science, radiation protection officers, practitioners from nuclear medicine, nuclear power plant operators, to other nuclear industry professionals, nuclear safety authorities, project partners, but also NGOs and representatives from civil society.

A special **communication networking day** is organized on the pre-conference day, on 14th of June in order to extend your network and to discuss your observations and findings with colleagues from different disciplines during a tourist visit in Slovenia or rafting in the Soca valley for those with more adventure spirit.

Papers presented at the conference will be peer reviewed and, upon acceptance, will be published in the special section of Journal of Radiological Protection (<http://iopscience.iop.org/0952-4746/>)

---

For more information and registration please visit the website:

<http://ricomet2015.sckcen.be/en>

Early bird registration is possible from 9th of February 2015 till 2nd of April 2015.

---

*The conference is organized under the auspices of the three FP7 projects:*

*Enhancing Education, Training And Communication Processes For Informed Behaviours And Decision-Making Related To Ionizing Radiation Risks*

*Open Project for the European Radiation Research Area*

*Innovative integrated tools and platforms for radiological emergency preparedness and post-accident response in Europe*
