

Dear Colleague,

We are pleased to inform you that the Notes Verbale (NV) announcing a **Technical Meeting to Discuss a Draft Document with Model Regulations on the Control of Public Exposure for Facilities and Activities Involving Uranium and Naturally Occurring Radioactive Material**, being held at IAEA headquarters in Vienna **from 18 to 22 April 2016**, have now been distributed to all of the IAEA's Member States. Electronic copies (PDF) of the NV (in all official languages) are now available for download from <https://gnssn.iaea.org/RTWS/general/Shared%20Documents/Environmental%20Assessment/TM-52828%2018-22%20April%202016> along with the Participation Form (Form A)\* which is required in order to register as a participant of the meeting.

Should you wish to take part in the TM, a Participation Form (Form A)\* **must** be completed and then forwarded to your respective country's competent official authority (Ministry of Foreign Affairs or National Atomic Energy Authority) for onward transmission to the IAEA. Please note that we will only be in a position to send you an invitation letter once in receipt of a fully endorsed Participation Form in your name. You'll note from the NV that the **deadline for receiving nominations** from competent official authorities is **15 March 2015**. In order to avoid any delays, we would therefore strongly suggest that you submit your completed Participation Form as soon as possible to your country's respective competent official authority.

Please note that you have received this communication as your name is included on the Overall MODARIA (e)mailing List, and as the subject of the TM is April is closely related to some of the work done under the MODARIA Programme, we thought it might be of interest to you.

Should you require any further more detailed information regarding this TM, please don't hesitate to contact the Responsible Officer (Ms Tamara Yankovich <mailto:T.Yankovich@iaea.org>) directly.

Kind regards,

Sent out on behalf of the MODARIA Secretariat by:
